☐ MEDLINE Complete

MEDLINE Complete provides authoritative medical information on medicine, nursing, dentistry, veterinary medicine, the health care system, pre-clinical sciences, and much more. *MEDLINE Complete* uses MeSH (Medical Subject Headings) indexing with tree, tree hierarchy, subheadings and explosion capabilities to search citations from over 5,400 current biomedical journals. *MEDLINE Complete* is also the world's most comprehensive source of full text for medical journals, providing full text for over 1,800 journals indexed in MEDLINE. Of those, more than 1,700 have cover-to-cover indexing in *MEDLINE*, and of those, over 900 are not found with full text in any version of *Academic Search, Health Source* or *Biomedical Reference Collection*. This wide-ranging file contains full text for many of the most used journals in the MEDLINE index - with no embargo. With coverage dating back to 1857 and full-text back to 1865, *MEDLINE Complete* is the definitive research tool for medical literature.
